

SPONSORSHIP INFORMATION

CatHacks is Kentucky's original college hackathon. Last April, CatHacks II brought together nearly 150 dedicated students from across the country for 24 hours of programming, learning, and fun. Their 33 projects represented Kentucky's most driven and creative engineers. This year, we're proud to host our most spectacular event to date.

What is a Hackathon?

A hackathon is an event where programmers and engineers compete in teams in order to design, build, and present original software in just 24 hours. We provide a collaborative, competitive, and exciting platform for students to finally bring their dream projects to life. There are no qualifications (other than being in college), and we encourage students with any level of experience to sign up. Hackathons present an opportunity like no other: programmers can develop their creativity, problem solving, and teamwork in an environment both competitive and fun.

Why Sponsor a Hackathon?

Recruitment

Hackathons present a unique opportunity for your company to network and interact with active, motivated engineers and designers. CatHacks uses a selective admission process and collects resumes from participants. As a sponsor, you will receive access to these resumes. We encourage all sponsors to send mentors to the event for face-to-face networking.

Exposure

As a CatHacks sponsor, you have a unique opportunity for direct publicity to an enormously receptive audience. Are you working on a product that needs beta testers? Come to CatHacks and meet some! Need feedback on your API? Sponsor a prize for participants who use it in creative ways. Do you want your logo to be seen across the country? Distribute your company shirt to participants, or become a sponsor and put your logo on our complementary CatHacks tees. If your goal is exposure, CatHacks has your back.

Get Involved

Send us an email at sponsor@cathacks.com with questions or proposals, and we'll get back to you within 48 hours. We will arrange a phone call or in-person meeting to discuss how we can get you involved. Even if you aren't sold on sponsoring quite yet, we encourage you to contact us. We will do our best to accommodate your business.
